Summary

I am a final year student of the University of Ghana pursuing a degree in Bachelor of Science in Information Technology. I am a beneficiary of the 2020 Huawei Seeds for the Future. I am a self-motivated individual, dedicated and passionate about every work I do. Ready to learn new things. I am a results-oriented individual who believes in hard work and commitment to duty. In order to ensure a comprehensive achievement of an organization's vision and mission statements, I work as a team player with integrity to meet specific and time-bound targets. I am proactive, resilient and dedicated to work on assignments given to me. As part of this, I am also a person who shares the idea of respecting individual opinions and believes in unity and in the abilities of others. I am an enthusiast in Artificial intelligence and i am also a passionate UI/UX designer who have started and finished numerous number of designs
